PMA.Economy – Accurate paint mixing made easy

Has everything you need

- Large backlit display
- Exact weight values
- Keypad featuring a new design
- Solvent-resistant housing components
- Optional USB interface
- Service worldwide

Sartorius PMA.Economy – the cost-effective solution from the successful PMA series. When you really need a simple, intuitive user interface for mixing paint and maximum accuracy for pouring in components accurately during the mixing process, the new PMA.Economy is the ideal solution.

Used as a stand-alone scale or connected over the optional interface for a PC or mixing system, the PMA.Economy will wow you with its unique price | performance ratio.

The scale's large, backlit display enables users to easily read all weight values. This means all information is available at a glance.

Large keys with positive click action let the user know when a key is pressed.

Rugged and reliable – overload and side impact protection enables this weighing system to withstand even the toughest environmental conditions.

Naturally, all housing components of the compact PMA.Economy are resistant to solvents and thus easy to clean. The wrap-around design of the stainless steel pan protects the weighing system from dirt build-up and paint spillage.

PMA.Economy at a Glance

Product	Order Number
PMA.Economy	PMA5000
PMA.Economy USB	PMA5000-000U

Optional Accessories	Order Number
USB interface (incl. data cable)	YD001PMA-USB

Technical Specifications

Weighing capacity	5000 g
Readability	0.1 g
Weighing pan dia.	233 mm
Net weight	3.3 kg
